class - 2nd

Vowels make special sounds when we speak them.

Each vowel can have one or more sounds.

For example : The vowel **a** is pronounced differently in **a**pe, **h**at, **a**rt, **a**ny, c**a**ke, etc.

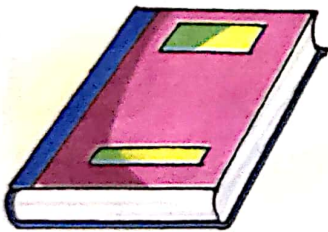

A **dictionary** is a book that tells us the meanings of words. In a dictionary, the words are given in alphabetical order. This means that words beginning with the letter **a** come first, then words beginning with the letter **b**, and so on. This helps you locate a word easily and find its meaning.
